

# Oracle 11g Data Base Administration (DBA) Training

## Course Description

Oracle 11g is a contemporary release of Oracle Database family of products. Besides retaining core concepts of its predecessor Oracle 10g, it has introduced certain new concepts and features to make it a most robust database system. This course develops skills required to manage Oracle 11g Databases efficiently with new functionality that makes many common operations tasks incredibly fast and simple. The course starts from teaching Oracle Database 11g fundamentals and moves on to the advanced level tasks a DBA has to exercise to keep the system up and running.

## Oracle 11g DBA Training includes following courses:

## Who Should Attend

- Database Administrators
- Database Designers
