

Oracle 11g Developer Course

Course Description

Oracle 11g is the latest release of Oracle Database family of products. Unlike the last release 10g which was more stable and bug free version of 9i, 11g was focused on fresh features, coding enhancements and advanced performance features. Understanding these features is equally important for learners who want to learn programming skills and embark upon the database application development profession.

Oracle 11g DBA Training includes following courses:

Who Should Attend

- Database Administrators
- Database Designers
- Developer
- Support Engineer
- Technical Administrator

Course Requirement

Familiarity with data processing concepts and 'Windows' graphical user interface (GUI)

Why Select SCL

- Training by qualified and professional trainers
- Free Career Counseling and Job placement advice
- Hands-on skills based training
- Free course material
- Comfortable and secure learning environment
- Air-conditioned Labs
- Evening timings for working professionals
- Affordable course fee and discount package offers
